Enterprise Data Solutions, Inc. Privacy Policy

Enterprise Data Solutions, Inc. (EDSI) is committed to protecting your privacy. EDSI offers Online Services and Hosting Services including Web and E-Mail Hosting, Application Hosting, and Online Training and Learning Courses. EDSI processes financial transactions for these services. During this process, various information is collected. This document describes what information is collected, how it is used, and how it is protected.

What Information Is Collected
The information collected depends on your activities and use of our site. The specific scenarios are described below

When You Browse Our Site
- IP Address: We collect your IP Address and track movements through the site. This is used for technical support and internal marketing purposes.

When You Purchase Through Our Website
- We collect your name, address, phone number, and e-mail address for all purchases. Your e-mail, address and phone number are required to communicate with you and to confirm transactions. Note that not all transactions will be confirmed by phone.

- If you pay by credit card, we collect your credit card information including card number, expiration date, and billing address. This information is secured as described below in the section **"How Is Personal Information Used".** This information is not permanently stored by EDSI. It is transmitted to our Credit Card Processor and is stored on their servers if you elect to save Credit Card information for future use. At no time is credit card information stored on EDSI Servers or in the EDSI Data Center.

When You Create an Account on Our Website
- When you create an account, you have the option of specifying additional addresses and/or contact information. This information is optional and for your convenience only. Information is used and protected as described below.

How Is Personal Information Used
- Information collected online by Enterprise Data Solutions is used as required to process your transaction. IT IS NOT GIVEN TO ANY OTHER THIRD PARTY UNDER ANY CIRCUMSTANCES.

- Any E-mail marketing done by EDSI, regardless of how the information is collected, will give the recipient an option to "OPT-OUT" of all future mailings. This option will be honored and the user will not receive any future unsolicited mailings from EDSI.

How Is Personal Information Protected
- We use 128-bit encryption technology ad Secure Socket Layers ("SSL") in all areas where personal information is collected. Our web site is certified by VeriSign or GoDaddy, which verifies that our website is authentic and that we use SSL Security. You may click on the Solid Key at the bottom of your browser to view our security certificate.

- Credit card information is passed to our Credit Card Processor via an SSL Connection. EDSI does not permanently store Credit Card Information.

Where Do I Direct Questions
- Contact Enterprise Data Solutions, Inc. at 866-302-EDSI (3374) or support@edsi.us.com if you have any questions or comments.
